

To whom it May Concern

I would like to thank you for the opportunity to be apart of Basketball City Basketball Camp. This summer I learned so many new things that I can utilize in the future. If it wasn't for this Camp experience I would probably have the same summer vacation that I usually have, This includes staying indoors and hanging with my friends.

Basketball City has helped me move forward towards my future goal, and has taught me that hardwork pays off. I believe this Campaign should continue so other kids and teens can experience the benefits from Basketball City Basketball Camp. I have learned many ball handling drills and crossovers to leave the defender stunned. All of the drills improve your basketball performance as well carrying out life lessons such as practice makes perfect and patience is the key.

I do hope this Camp will be available next year for myself and others to enjoy. I'm truly thankful for the experience and opportunity

sincerely,
