

Dear The Billy Garfield Foundation,

Hello, my name is Tarikh [REDACTED] and I am from the Big Brother Big Sisters program. I would like let you know how grateful I am for this opportunity foundation has given to me. Throughout my experience, I have only got a better understanding of the fundamentals of basketball but also the importance of discipline required to play smart in the game of basketball.

The coaches at Basketball City demonstrated smart techniques to improve and apply to our current skills, which proved to be very effective. The coaches were also open to all students, you can ask them things you struggled with and they showed you; it was never a bad time to ask. During the week Langston Galloway made his appearances, he was really open to us and was a very chill dude. We took pictures with him; he signed our jersey's he also talked to us pertaining to his experiences in the NBA and the

credentials that we need in order to achieve and make our dream possible.

My Coach Willie was great he showed us that defense wins games and it really does. Unfortunately we didn't make it to the finals but our team did an exceptional job working together. Coach Willie also gave me advice on the areas I shine in and the areas I need improvement in. What I really will cherish from the overall experience would be environment that was set in pier 36, it is the most beautiful gym I ever been in and with the coaches personalities made it a very fun and enjoyable week wanting me to come back everyday, while the hard work payed off in the end.

Without the blessing of [REDACTED] and also the donation from The Billy Garfield Foundation none of this would have be possible. I thank you for everything, I enjoyed the experience and will cherish it with me.

Sincerely Tarikh [REDACTED]
